Sage Dev Stream
Frequently Asked Questions (FAQ)

28 October 2021

What is Sage Dev Stream?

Sage Dev Stream is an online live event for software developers, innovators and engineers.

When is Sage Dev Stream?

Sage Dev Stream will take place on **Thursday, 28 October 2021**. Visit the Sage Dev Stream event page for more information.

Where will Sage Dev Stream take place?

Sage Dev Stream **will be a virtual event.** Join us from the comfort of your home, office or jobsite**.** You can participate anywhere that you have Internet access—your desktop, mobile or tablet device. Visit Sage Dev Stream event page for more information.

Who should attend?

If you're a developer with an app that could be useful to Sage customers, thinking of building an app or just curious about Sage, then this event is relevant to you. The event has both technical and non-technical sessions, so you don't have to understand code to attend.

What types of content will be offered?

The event offers strategic overviews, product updates and technical deep dives into specific topics. The sessions will also feature discussions with leading developers on their experiences building successful solutions. Please visit the Sage Dev Stream event page for details.

Who is presenting?

The speaker lineup is live. You will hear from Sage leaders, key members of the product and technology teams and partners.

How much does it cost to attend?

The virtual event is free to attend.

Do I need to register to attend the virtual event?

Yes, you will need to register to enjoy the virtual event.

When will registration open?

Registration is now open. Please proceed to Sage Dev Stream to register for the event and obtain session updates.

I received the following registration error "Email address already in use". What do I do?

If you received this error, it means you have already registered for the event. You are all set and do not need to do anything else to register.

How do I log into Sage Dev Stream on the day of the event?

Shortly before the start of the event, you will be able to access the live session by selecting the "Login" button on the Sage Dev Stream event page. Your login details will be your email address and the password created during registration. You can use these details to access the online event.

Which browser is best for video streaming?

Chrome and Firefox is recommended.

What can I do to improve video streaming quality?

Good internet connectivity will ensure high quality video streaming.

Who do I contact if I need technical assistance during the event?

Please send an email to sagedevstream@getvfairs.io for any technical assistance.

How long will the on-demand content be available online after the event concludes?

The on-demand content will be hosted for 30 days following the event. Sage Developer Community members will have extended access to content. Create a profile or use your existing Sage ID to log into the community.

Still have questions?

Email SagePartners@sage.com and a Sage Dev Stream team member will contact you.
